Indian Silver Screen Dr. Paramveer Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

Screening the Public Sphere Saima Saeed, 2020-11-29 For centuries, democracy and development have steered the imagination of governments, citizens, intelligentsia and policymakers alike. Democracy without free media is a contradiction, while development without democracy is futile. Highlighting the power and significance of contemporary media, this book deconstructs news and news-making on Indian television. In exploring the concepts of 'sense-making' and 'meaning-generation', it examines how news and the dissemination of information and opinion influence the public sphere, participatory democracy, citizenship and civil society. Providing an original interpretation of the paradigmatic shifts in news content and newsroom practices, this book focuses on changing ownership patterns, increasing 'entertainmentization' of news and the resultant 'developmental reportage deficit'. At the same time, it confronts the uneasy and critical consequences of commercialization and rising sensationalism in news media. Finally, it discusses the role of Public Service Broadcasting, journalistic ethics,

objectivity, and the politics of language and ideology in the media today, pointing to the need for greater diversity of content on the one hand and an emphasis on public interest in media policy-making, on the other. Drawing upon comprehensive empirical data, the democracy-media-development relationship is demonstrated through critical analyses of the media's coverage of recent news events. This includes exhaustive content examination of news programmes on all major news channels of India, surveys with media experts and news professionals by way of questionnaires, and interviews with the audience to gauge the impact of media content on their understanding of social, political and economic issues. This volume will be especially useful to those in journalism, media and communication studies, as also to students of political science, sociology and economics.

Chemical Khichdi Aparna Piramal Raje, 2022-05-06 Aparna Piramal Raje's life looks successful. Hailing from a well-known business family, she is married, has two children, is a published author, a popular columnist with a leading daily and was the CEO of a leading furniture company. However, only a few close friends and family members were aware that she struggled with a serious mental illness--bipolar disorder--for two decades. Also known as manic depression, bipolar disorder is characterized by extreme shifts in moods and energy levels, leading to euphoric highs and damaging lows. Now, Aparna wants to tell the story of how she learnt to come to terms with her condition. Part memoir, part reportage and part self-help guide, *Chemical Khichdi* seeks to remove some of the stigma associated with a serious mental illness in an empathetic, accessible and candid way. Its 'seven therapies' present a hopeful and helpful pathway for all those with a mental health condition, their loved ones and their mental health practitioners, with the message that they can live with a vulnerability and thrive.

Mass Communication in India, Fifth Edition Keval J. Kumar, 2020-12-10 Third Completely Revised and Updated Edition *Mass Communication in India* is a result of the author's in-depth study and understanding of the media. The book deals with a general introduction to Communication Theory, Advertising, Television, Effects of Media and Development. In short, the book is designed to give the student of Mass Communication a general and comprehensive view of the modern and traditional media in India. It meets the objective of being a text book as well as a book that gives an overview of mass communication in India.

News as Entertainment Daya Kishan Thussu, 2008-01-09 Thussu brings to this project the passion for news of a socially committed former journalist, the political economy of his international relations education and a formidable assembly of global detail, examining the recent explosion of 'infotainment'. - John Downing, Southern Illinois University Thussu's account of war as infotainment, the Bollywoodization of news and the emergence of a global infotainment sphere is as compelling as it is alarming. This is a significant and essential book for anyone interested in exploring the connections between news journalism, informed citizenship and democracy. - Bob Franklin, The Cardiff School of Journalism, Media and Cultural Studies Richly detailed and empirically grounded, this first book-length study of infotainment and its globalization by a leading scholar of global communication, offers a comprehensive and critical analysis of this emerging phenomenon. Going beyond - both geographically and

theoretically - the 'dumbing down' discourse, largely confined to the Anglo-American media, the book argues that infotainment may have an important ideological role, a diversion in which 'soft news' masks the hard realities of neo-liberal imperialism. Chapters include a historical appraisal of infotainment; the infrastructure for its globalization as well as coverage of recent wars on television news as high-tech infotainment and the growing synergies between Hollywood and Bollywood-originated infotainment. A 'global infotainment sphere' is emerging, the book argues, within which competing versions of news - from 24/7 news networks to bloggers - coexist. Accessible, engagingly written and robustly argued, the book combines analyses of theoretical debates on infotainment with extensive and up-to-date comparative data.

"A Sociological Study of Patterns of Televiewing" Dr. BABAN M. CHOUDHARI (Researcher) ,Dr. (Mrs) SUNANDA BIRE (Supervisor), During the past decade, the number of television receivers per home has skyrocketed, with many children each having a TV set in their bedroom. Through cable and satellite access, families have a choice of a hundred or more channels, most broadcasting twenty-four hours a day. The videotape recorder has enabled viewers to delay watching or to rewatch television programs at any time and thereby shift the traditional viewing hours to virtually any time of the day. The research studies directed at these phenomena have confirmed, however, that little effect has been seen in children's viewing habits. There was simply more of the same programming fare and it was available through a broader time frame. The distribution of television sets into various areas of the home and the less traditional hours of availability have, if anything, reduced the opportunities for parental coviewing and control. The V-chip was predicted to enhance the ability of parents to exercise such control, but appears to have been a failure with many parents not even aware of the existence of such a device.

Critical Perspectives on Journalistic Beliefs and Actions Eric Freedman,Robyn S. Goodman,Elanie Steyn,2018-05-11 This book provides case studies, many incorporating in-depth interviews and surveys of journalists. It examines issues such as journalists' attitudes toward their contributions to society; the impact of industry and technological changes; culture and minority issues in the newsroom and profession; the impact of censorship and self-censorship; and coping with psychological pressures and physical safety dilemmas. Its chapters also highlight journalists' challenges in national and multinational contexts. International scholars, conducting research within a wide range of authoritarian, semi-democratic, and democratic systems, contributed to this examination of journalistic practices in the Arab World, Australia, Bangladesh, Bulgaria, China, Denmark, India, Kenya, Kyrgyzstan, Malaysia, Mexico, Russia, Samoa, South Africa, Taiwan, Turkey, and the United States.

Financializing Poverty Sohini Kar,2018-07-10 Microfinance is the business of giving small, collateral-free loans to poor borrowers that are paid back in frequent intervals with interest. While these for-profit microfinance

institutions (MFIs) promise social and economic empowerment, they have mainly succeeded at enfolded the poor—especially women—into the vast circuits of global finance. Financializing Poverty ethnographically examines how the emergence of MFIs has allowed financial institutions in the city of Kolkata, India, to capitalize on the poverty of its residents. This book reveals how MFIs have restructured debt relationships in new ways. On the one hand, they have opened access to new streams of credit. However, as the network of finance increasingly incorporates the poor, the inclusive dimensions of microfinance are continuously met with rigid forms of credit risk management that reproduce the very inequality the loans are meant to alleviate. Moreover, despite being collateral-free loans, the use of life insurance to manage the high mortality rates of poor borrowers has led to the collateralization of life itself. Thus the newfound ability of the poor to use MFI loans has entrapped them in a system dependent not only on their circulation of capital, but on the poverty that threatens their lives.

Collective Myths and Decivilizing Processes Stefan Kramer, Peter Ludes, Collective myths shape and frame contemporary communication processes as well as the collective subconscious. International contributors from the humanities and social sciences focus on interdependencies between collective myths and decivilizing processes in China and the United States, global economics, and recent technological advances. They highlight long-term de-/civilizing processes also for the globally important survival units India and Turkey, and the violently contested border areas of Afghanistan and Pakistan.
