War and Peace in the Global Village Marshall McLuhan, Quentin Fiore, 1968

*War and Peace in the Global Village* Marshall McLuhan, Quentin Fiore, 2021-05-18 War and Peace in The Global Village is a collage of images and text that sharply illustrates the effects of electronic media and new technology on man. Marshall McLuhan wrote this book thirty years ago and following its publication predicted that the forthcoming information age would be a transitional era of profound pain and tragic identity quest. Marshall McLuhan illustrates the fact that all social changes are caused by introduction of new technologies. He interprets these new technologies as extensions or self-amputations of our own being, because technologies extend bodily reach. McLuhan's ideas and observations seem disturbingly accurate and clearly applicable to the world in which we live. War and Peace in the Global Village is a meditation on accelerating innovations leading to identity loss and war. Initially published in 1968, this text is regarded as a revolutionary work for its depiction of a planet made ever smaller by new technologies. A mosaic of pointed insights and probes, this text predicts a world without centres or boundaries. It illustrates how the electronic information travelling around the globe at the speed of light has eroded the rules of the linear, literate world. No longer can there be fixed positions or goals.

*The Global Village Myth* Patrick Porter, 2015-01-27 Porter challenges the powerful ideology of Globalism that is widely subscribed to by the US national security community. Globalism entails visions of a perilous shrunken world in which security interests are interconnected almost without limit, exposing even powerful states to instant war. Globalism does not just describe the world, but prescribes expansive strategies to deal with it, portraying a fragile globe that the superpower must continually tame into order. Porter argues that this vision of the world has resulted in the US undertaking too many unnecessary military adventures and dangerous strategic overstretch. Distance and geography should be some of the factors that help the US separate the important from the unimportant in international relations. The US should also recognize that, despite the latest technologies, projecting power over great distances still incurs frictions and costs that set real limits on American power. Reviving an appreciation of distance and geography would lead to a more sensible and sustainable grand strategy.

*Global Village Or Global Pillage* Jeremy Brecher, Tim Costello, 1998 In clear, accessible language, Brecher and Costello describe how people around the world have started challenging the New World Economy. From the Zapatistas of Chiapas to students in France to the broad-based anti-NAFTA and anti-GATT coalitions in the United States, opposition to economic globalization, Brecher and Costello argue, is becoming a worldwide revolt.

**Genocide and the Global Village** K. Campbell, 2001-09-07 A half-century ago, the international community made a solemn promise to 'never again' allow genocide to go unchallenged. In the early days of the Post-Cold War 'New World Order,' though, international leaders failed to stop horrific genocides in Bosnia and Rwanda, chiefly because Western leaders lack the 'political will' to use decisive force to suppress ongoing genocide. Despite increased attention to war crimes issues in the Clinton Administration, and increased rhetoric about its commitment to halting genocide, American military force policy still gives lowest priority to responding to gross abuses of human rights. In *Genocide and the Global Village*, Kenneth Campbell explains why the international community fails so miserably to prevent, suppress, and punish contemporary genocide. The book integrates the scattered pieces of this complex problem - political, military, legal, and ethical - into a more complete, clearer picture of the challenge facing the world today. Campbell engages in a complex, multi-level analysis of genocide's impact upon world order, and the inter-play of politics and morality in the international community's determination of the appropriate role for military force in halting genocide and securing an emerging global civil society. Campbell recommends practical steps the international community can take to greatly improve its response the next time genocide occurs - a next time that will occur.

Culture Is Our Business Marshall McLuhan, 2015-02-12 Culture Is Our Business is Marshall McLuhan's sequel to *The Mechanical Bride: Folklore of Industrial Man*. Returning to the subject of advertising newly armed with the electric sensibility that informed *The Gutenberg Galaxy*, *Understanding Media*, and *The Medium Is the Massage*, McLuhan takes on the mad men (a play on the ad men of Madison Avenue) of the sixties. Approaching commercial messages as unacknowledged art forms and cultural artifacts, McLuhan delivers a series of probes that pick apart their meanings and underlying values, their paradoxes and paralogsms, and their overt function as persuasion and propaganda. Through humor, satire, and a poetic sensibility, he provides us with a serious exploration of the consumer culture that emerged out of the electronic media environment. In keeping with the participatory ethos of the Internet that McLuhan so clearly anticipated, this is a book that is meant to open the door to further study, reflection, and discussion, and to encourage the development of critical reception on the part of the reader.

**Space and the Global Village: Tele-services for the 21st Century** G. Haskell, Michael J Rycroft, 2012-12-06 Recent developments in telecommunications have led to new developments in tele-services, particularly tele-health and tele-education, for the benefit of those living in either the developed world or the less developed world. The benefits accrue to individuals and also to society at large. An international and interdisciplinary Symposium was organized by the International Space University to bring together technical and non-technical people to consider the future applications of space techniques to tele-services. The Proceedings of this Symposium are essential reading for all who need to appreciate the broad range of issues involved in this developing area.

**Gods in the Global Village** Lester R. Kurtz, 2007 Publisher Description

The Future of Peace and Justice in the Global Village Thomas R. McFaul, 2006-09-30 Many authors have written on the effect technology, economics, and politics have on globalization, but few have addressed the potential impact of world religions on the future direction of globalization. McFaul's fascinating book explores what others have not: the part the world's major religions—Hinduism, Buddhism, Jainism, Zoroastrianism, Judaism, Christianity, and Islam—will play in bringing either greater peace and justice or hatred and hostility to the global village. Will these religions, which exert the greatest amount of influence worldwide, be a force for good or ill in the emerging global village of the 21st century? This book answers that question and more. Covering the religions to which the majority of world's population adheres, it offers insight into the commonalities, differences, and potential for coming together to create peace to be found among the major faiths. The world's seven major religions are covered, and topics such as sexuality, ethics, violence, and the tension between secular and sacred arenas are discussed for each. McFaul argues that if the leaders and laity of these religions are able to find common ground, efforts toward peace and justice in the global village can be more effective and lasting. If they accentuate their differences, he suggests, they will only produce more hatred and hostility.

Shadows of War Carolyn Nordstrom, 2004 Annotation This book captures the human face of the frontlines, revealing both the visible and the hidden realities of contemporary war, power, and international profiteering in the 21st century.

Gods in the Global Village Lester R. Kurtz, 2015-04-01 In a world plagued by religious conflict, how can the various religious and

secular traditions coexist peacefully on the planet? And, what role does sociology play in helping us understand the state of religious life in a globalizing world? In the Fourth Edition of *Gods in the Global Village*, author Lester Kurtz continues to address these questions. This text is an engaging, thought-provoking examination of the relationships among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order. Thoroughly updated to reflect recent events, the book discusses the role of religion in our daily lives and global politics, and the ways in which religion is both an agent of, and barrier to, social change.

*Compassion for one another in the Global Village* Ulrike Elsdörfer, Takaaki David Ito, 2016 The International Council on Pastoral Care and Counselling (ICPCC) met in October 2015 in San Francisco for its 10th International Congress. Recent results from worldwide projects underlined the importance of an exchange within the globalized network. Interreligious encounters in spiritual care and counseling led to new insights, while aspects of social justice brought along new challenges. Sections on technology and internet communication opened a space for new reflections in the realm of spiritual experience. This volume presents documents from a joint meeting of ICPCC with American organizations for Pastoral Care and Counselling. It shows the enduring process of formation of a worldwide community of spiritual counsellors. (Series: Pastoral Care and Spiritual Healing - Spiritualität interkulturell, Vol. 4) [Subject: Sociology, Pastoral Care]

*The Palgrave Dictionary of Transnational History* A. Iriye, P. Saunier, 2016-04-30 Written and edited by many of the world's foremost scholars of transnational history, this Dictionary challenges readers to look at the contemporary world in a new light. Contains over 400 entries on transnational subjects such as food, migration and religion, as well as traditional topics such as nationalism and war.

**Dispatches from the Global Village** Derek Evans, 2007 *Dispatches from the Global Village* is a collection of 30 columns by Derek Evans, former Deputy Secretary General of Amnesty International. While the entry point for these columns (first published by the *Naramata* and *Penticton, B.C.*, newspapers) is often something seemingly innocuous, perhaps even mundane - like a cup of tea, a croissant, a picture on a wall - the essays themselves are not for the faint of heart. As the leader of more than 60 Amnesty International delegations, and more recently as a consultant to the United Nations and other international organizations, Evans has travelled the globe to meet with African warlords and the Dalai Lama, heads of state and the leaders of rebel armies, victims of torture and peasant farmers; his single-minded objective, to challenge the forces of injustice, violence, and all things that separate people and nations from each other. Yet what shines through in each story - whether he's negotiating with rebel factions in the Sudan; or meeting, under threat of death and in the dead of night, with the families of disappeared children in Sri Lanka - is Evans' unfaltering hope that people can find within themselves the wisdom to choose a different path, that somehow we can learn to live in peace despite our differences. Informing, challenging, and inspiring, the stories, images, and hope contained in *Dispatches from the Global Village* will stay with the reader long after the book is set down.
